“ I have known Al when I played some city league basketball on the Jones' Campus Conoco in the 60's. More recently Al shared some stories of him and my father, who was a policeman. Al said he loved the fact that my dad would send him home and say tell your Dad what happened because I will check if you did. Al said telling his Dad was hard but he learned. This story says a lot about Al's ability to learn from life and apply it to his interactions with his students and players. Of course, when he told that story there was the glint of mischievousness in his eye. Whata guy.

“ I may have spent more time in his office due to my troubles, than for any other reason. He was always a kind hearted man, he would be stern, but you knew he cared. He believed in me when I doubted myself.

“ Mr Lear I will never forget your guidance and your pure confidence in me. You always knew what to say to motivate me to be the best I could be. You really cared for every student that walked the halls at Windsor. When I wanted to play softball you made that possible for me to go to Fort Collins and helped me whenever I needed anything just someone to talk to. As a young girl I used to love watching my brother and Thad play it was pretty special and how excited my dad was to do Stats for you all

Of those years you really made him feel apart of your teams always. Much love to The Lear Family

“ Where to start-as a beginner teacher/coach I modeled everything I did after Coach Lear! He was such an influential role model. I had the pleasure, I guess that's what they called working your butt off in the summer sun along side him in the summer rec commission. During fball season you never wanted to lose as you knew manic Mondays of running 100 yd zippers were on the schedule! From the chalk board breaking 1/2 time one eye going cross eyed speeches that got you so fired up, to the practices when he'd be so mad he'd grab a helmet and take on the entire team in a drill, to the Y club letterman's initiation, to his "sayings" about girl friends, to the matching of quarters for donuts...he was the "guy" we all wanted to be. I "earned" the nickname Sputz cuz of my ears and I vividly remember his wife Terri yelling from the stands on fball kickoffs "light em up Sputz!"

I remember several times I was injured at practices and Coach Lear ALWAYS made a point to come by my house and/or call to check on me. What a great opportunity we Yuma Indians had to have been influenced by Al Lear and his coaching staff- Ernie Stumpf, Bill Kolb, Jim Hess, Simmy

There was none like Coach Al Lear, I sincerely appreciate you! I love you man! God's peace which surpasses all understanding for Terri and his family. Brad Starnes

“ Al was absolutely one of the best. I will always cherish the memories of the many hours I was able to spend with him in roping arenas. He loved roping, and we had some great times. I'll always be proud to say that Al was my friend...he was one of the good ones. RIP Big Al.

“ Coach Al Lear took Yuma to State in AA football. This memory was a highlight in my high school education. Teaching me respect and dignity in who I am and how to work with others. Individuals like him will be missed. I'm sorry for your loss, in these times we come to see how much we touch each other in life.

“ Terry, Shawn and Thad: I hope you know how much Al meant to me during our many years together at WHS. As the years progressed, he became not only a friend, but a mentor and the greatest support a teacher could require, and although he admitted not really knowing much of what I was teaching, he always appreciated, supported, and respected what I was doing in class. It was amazing how two men with very different interests and passions in our personal lives could learn to appreciate and respect the other. I will miss him so much, but I am glad he was surrounded by three such wonderful people who loved him. Kurt Zscheile

“ We are all better off for having known, worked, and enjoyed a friendship with Al. His tenure in Windsor was marked by great success and even better leadership. He always had your back and feared nothing as an athlete, coach and man. His presence made all of us better and was a great influence on his players and peers. He will be sorely missed. Our condolences to Terry, Shawn, Thad and their families.

“ Al was such a great friend to so many.,,especially to Mo. He spent many hours with Mo during his illness, laughing and telling each other wild tales. Al made sure that Mo would attend Nate's All Star football game in Denver - loading us into his van, driving us down, staying with him on the sidelines in Mo's wheelchair, taking us to dinner afterwards. That was Mo's last meal. I'll never forget Al's kindness and beautiful heart. We all have lost a very special man. God bless his family and all the thousands of friends who are mourning him.

“ My son Chad Walker played for him in high school. They were in the state play off game and won!!! Oh what a victory and a feeling!! Chad than came home with his hair shaved off completely and I said "What in the world did you do? He replies " We all agreed on the team that if we won the state championship than we would shave Mr Lears head and than ourselves. What a memory. Those kids loved him. I believe that was in 1994.
