“ Not sure when these photos were taken but thought everyone would enjoy them. Betty was my cousin and we played together when we were young. I too reconnected with her and Butch later in life and enjoyed discussing genealogy topics of our family history. She was very helpful and I will miss her help.

“ My sweet beautiful sister. I will miss you so much and our fun games of Words. Being adopted, I did not even know you existed till over 16 years ago. Upon finally finding my Birth Family and first hearing our sister's voice, Marie, on the phone, you were the first one in the family to call me and say Hi, I hear I have another sister....Welcome to the Family. You helped get me acquainted to the family by our phone conversations and the sending of many pictures . You are basically the one who arranged for me to come to a "family reunion" where I could meet everyone and finally see my Birth Mother for the very first time. In the car my family got and we drove from CA to CO fulfilling a dream I had so hoped for for so many years. That day is a day I will never, never forget. Everyone welcomed me with open arms and although we all lived so far apart, it has been wonderful to experience my family even from afar, thanks to this thing called---Social Media. I love you and know you are now walking, running and dancing through Heaven next to your previous family members including our brother Butch who also just recently passed. May you Rest In Peace until we are all together once again. Your sister, Dianne

“ Betty and I reconnected on facebook playing words with friends and it got so we were playing 8-10 games constantly. I loved it! And I will so miss it, even though there were times I would be ready to go to bed and she would play again. She was a good friend in school in Fort Collins until she dropped out and marry her lifelong sweetheart.
