“ The Pattersons were the best of our Cheyenne Road neighbors. I was in Mr. Patterson's U.S. History class when his lesson was interrupted with sounds from radio news over the P.A. system. Within minutes, we learned of the assassination of President Kennedy. His response to that news was a lesson in itself and a great comfort to me. My thoughts and prayers are with his family.

“ Dear Vi, Lois Adams was kind enough to send me the clipping about Bill's passing and I have sent the news to Roberta. She and I were in Colorado Springs about this time last year. One thing we did was to walk around the block from our house to yours and that made for good memories of the Pattersons. It is, of course, thanks to Bill that she and I have REAL Christmas music from CMH. My thoughts are with you, Donna Bender Hood

“ Mr. Patterson was instrumental in my deep interest in history. My strongest memory of him though is his incredible patience as he taught me to water ski in a pond in Colorado Springs. I never made it around the "pond" and fell so often that my legs were bruised until the following year when I was determined to succeed at this nightmare sport. I am so grateful that he didn't give up on me and he let me return to "ski club" the following year. His acceptance and encouragement has been instrumental in my life, enabling me to persevere as I have encountered other difficulties. Who would think that water skiing would be an opportunity to have a life changed for decades because I did learn to persevere on a pond in Colorado Springs and so embarrassed because I failed for one whole summer in front of my friends. Mr Patterson was a great teacher and a wonderful man who influenced many young people in many ways. I hope that his family remembers the good things that made Bill a man of influence not just to them but to others as well.

“ Bill was a wonderful, sincere person and educator. I envy that I didn't have him as one of my teachers in high school when I was younger. I first met Bill when I worked in a quartermaster warehouse in then Camp Carson. Bill was a supervisor. He was sorely missed when he left for a teaching position. What a pleasant surprise I had when I learned that he would be my principal when he and Jack Chamney interviewed me for a teaching position. His standards for teaching should be emulated by every aspiring teacher. God bless Vie, Bonnie, and Billie for your sorrow. With sincere sympathy, Bruce and Marcella
