“ I was very surprised to hear that Ken had passed away. Ken will be missed by so many people there in Wellington and the surrounding area, as he touched and helped to many of us at some point in our lives. He was always willing to help and never asked for anything in return. Ken and Brenda are two very amazing people who opened their hearts to my family and helped provide a fund raiser for my daughter, Michelle. Ken also was there to help me get my car towed when I had a accident near Wellington. I know I will never forget him. I try and make the T-Bar one of my stops whenever I'm in Colorado. Thank you Ken and Brenda, you will always be in my prayers.

“ Uncle Ken will always be one of my heroes, as a young boy I lost my Father so every time Ken came to visit we went fishing with my other uncles and my grandfather we had many occasions fishing together. I loved listening to his stories about his service in the military. I really laughed about his story when he and his buddies caught a huge boa and kept it in a cage and how he had a hate of snakes and that he'd tease it and torment it knowing it couldn't get out. but then he'd have nightmares on that snake escapeing someday paying him back. Fishing on the Blackfoot River well known for Rattlers I watched Ken multiple times walk on water when he seen a snake I recall him flying too! I swear to this day he had super powers!

I also learned not to ever pretend and point at his feet and yell snake!

That day I flew as he planted his boot right on my butt. I didn't hurt cause my gut hurt from laughing at his fright.

He had some great stories of his days traveling around on his bike with some his buddies. He could make me laugh but would always amaze me the things he'd done. One of my most memorable fishing trips with Ken we went to Clark Canyon just me and him for three days right after I graduated high school. We caught so many fish out of his boat we had to make runs home mid day so we could come back and catch more that night. Only me and Ken know how many fish we caught. All I will say is everyone in our family had a freezer full and we had one hell of a fish fry at the end of that week. We slept under the stars in his boat each night. Ken was a big help and influence as I grew up. Every time they came to Idaho Ken and Brenda would drive by my house till they caught me at home and just stop and visit most of the time surprised me as they pulled up. I really enjoyed those visits.

We always talked about his land in Montana as soon as he retired we'd do a bear hunt up their we will not get that chance in this life but he will be with me in my heart this spring as I go play with the bears here in the mountains of Idaho.

“ My family and I had recently moved to Wellington in 1980. It was then, I was offered my first job as the dishwasher and prep because I was too you at the time to waitress. Kenny and Brenda taught me of being a responsible person and the importance of a job is. He always made light and enjoyed the people of our town.. It was about 3 years ago, we took a loss of my then ex mother in law Sharon, and knew our family. That when he heard if our loss, opened up the doors for our celebration of her life.
I remembered how my heart and smile came through when I got to see you and your wife Brenda again...and still remembered after all the years..
Thank you..rip friend..
