“ I had the honor of caring for your Mother. Her amazing smile with her nose crinkled always made my day. She always had a moment for anyone who needed her and gave so much happiness to all of us. We already miss her so much! Rest in peace Alice you were an amazing lady. Cheryl

“ I am sorry for your loss and my thoughts are with you and the kids. Alice was a nice lady and had a wonderful, long and full life, filled with the joys of a loving family, children and grand children, one could ask for little more. It is never easy to lose a loved one, and although we must endure tragedies and loss in our lives, it would be far worse to have never known the pleasures and joy that the love of these special people brought to our lives. In time the dark clouds of sorrow and loss begin to clear and the heartbreak eases and in their place will be all the love and fond memories. I know that you will always love and miss Alice but the beautiful memories will live with you forever and will give you great pleasure, they will sustain you through the difficult times and will enrich your life and give you a deeper appreciation for love and for life. My Thoughts and my Love are with you all, Don

“ Took care of Alice while she was at our facility.. she was always the first one i said hi too in the mornings/evenings and the last one i said bye too at the end of my shift.. she brightened my day every time i walked into work, i had the pleasure of tucking her into bed the last night she was with us and gave her a kiss on the nose and said " Goodnite Alice, Sweet dreams and Love you" with a lil voice telling me goodnight as i walked out of her room, lil did i know that would be the last kiss on her nose and the last goodnight she will ever hear. I will never forget my tiny lil Alice.. our residents come and go but there is only a few that have touched my heart and that is Alice. Ill miss you Alice, Goodnight and sweet dreams....
