“ I certainly have missed Betty since her death in JULY. We always spoke every night and some times during the day. I miss her stopping by, will miss doing her taxes, and the loving thoughts she gave me. She has meant alot to me as a friend as a co-worker and her prayers. She was always ready to talk, give moral support, and her love was always there for me. She is missed alot but I know that her love for the Lord saw her through the last days and now she is where she was waiting to go. Her loving care and prayers are truly missed.
