“ To Clarence's family, You won't know me but I worked with Clarence at Water Pik both in Ft. Collins and Loveland from 1975 to 1997. I was a technician in the molding dept. and interfaced with him frequently about quality issues on parts. I do remember Clarence's very distictive voice, such a booming voice coming from a smaller guy. I have never heard another like his. Clarence was able to work well under pressure, which was the environment there all too often and keep his cool, which not a lot of other people could do. God bless you.
