“Cliff helped me in school and I wish I had stayed in touch with him. The world is a little sadder place for me knowing he is gone but I think the world is a better place since Cliff was born.

“There were four of us in middle school and high school who were best friends-Jay Olund, William Leigh and myself Eduardo Marques. We were all nerds. Jay finished #1 and Cliff #3 in a graduating class of nearly 900. When we were in San Pedro High we had a Stratomatic Baseball game league and we would play after school at Cliff's house.
