

## David D. Balhiser

September 30, 1974 - January 31, 2016

David D. Balhiser, age 41, died January 31st, 2016. Dave passed away in Fort Collins, Colorado where he had lived and worked for the past 18 years.

Dave was born September 30, 1974 to Robert and Luella Balhiser in Whitefish, Montana. He spent many happy hours of his childhood hiking mountain trails with his brother Justin and beloved dog Teddy. He never lost his love for the great outdoors.

In 2005 he met Gabi Endress. She became the love of his life. They married in 2012. He and Gabi relished traveling, especially to tropical destinations like Puerto Rico and Belize.

David was a brilliant and talented engineer. In 1997 he graduated from Montana State University with a degree in Electrical Engineering. He became a lead engineer for companies like Hewlett-Packard and Intel where he developed complex software and a number innovative devices. Several so original in concept and design, they were issued US patents in his name.

In 2015 he received a Masters of Science in Business Administration and became an adjunct professor at Colorado State University College of Business.

Dave was an exceptionally hard-working and intelligent person. He was also a much beloved son, brother, husband and friend. He will, without a doubt, be sorely missed.
