VB

“ *Donnie was one of the kindest people I've ever known! I lived with him and Bob for many years and saw him help so many people! Myself included! One of my favorite memories was learning to throw darts left-handed with him! He had injured his right hand and couldn't throw with it. Seemed only fair that if he had to throw left-handed, I should too! Those first games took a LOOONG time! Eventually though, we got pretty good at it! I will definitely miss him!!*
