“ Went to junior high & high school w Karlin. SO MUCH FUN with her!!!! My twin sister Susan and I were so bummed to learn that Karlin had passed away. I had not been in touch with Karlin for 9 years. I reached out to her a few years ago, but she was not at the best place in her life at that time and we never did connect. Just spoke with her brother today to learn the bad news well after the fact. Karlin was hilarious, and we had so much fun at her house when her parents were out of town!!!! Sweet, funny, smart girl with such a great sense of humor. My heart breaks for her and for her children and her brothers. I hope all is as good as it can be under the circumstances. I know she LOVED her kids A TON. If anyone ever needs anything at all, Kris has my phone #. I don't know what else to say. RIP, Karlin, we will miss you. I thought about you SO OFTEN even during all the time that we were not in touch. XO

“ I was heartbroken to hear of Karlin's passing. I was fortunate enough to have met her at Leshar and develop a friendship that lasted past high school. I loved Karlin and everything about her. I'm so sorry for your loss and I hope her children will be told about all the things that made her amazing. RIP dear friend.

“ I wish for Karlins children to retreat from life when times are difficult and feel the warmth and love that is eternal in a mothers heart for their children. She will always be with you. When your Mother loved... She did so without reservation . I remember Karlin as a girl who grew into a women that had spunk, a beautiful smile, a smart mind. I remember she had a strong appreciation of the beauty of the outdoors and wild flowers . Rest in peace Karlin. I have a deep appreciation for your journey and strength. God Bless your family. “ I was saddened to hear of Karlin's passing. I loved her. She was a sweet, kind, caring, and talented woman. She leaves behind three beautiful children. She loved them very much and I know they will miss her. I pray God will ease the pain that is felt with the loss of her life here on earth.
