

Kenneth Koch, II

April 6, 1958 - February 22, 2024

Kenneth Koch II, a brilliant engineer, inventor, mentor, and father, passed away on February 22nd, 2024. Born on April 6th, 1958, in Massachusetts, to Mary J. Batchelder, Kenneth's life was a testament to curiosity, intellectualism, innovation, and a deep love for family.

Kenneth's mind was constantly buzzing with ideas. He possessed a natural aptitude for engineering, and his innovative spirit led him to develop groundbreaking inventions that in the microprocessing, computing and fiber optic spaces.

Beyond his professional achievements, Kenneth was a dedicated mentor who freely shared his knowledge and expertise with others. He found immense joy in guiding and encouraging young minds to pursue their passions in science and technology.

Kenneth's greatest love was his family. He was a devoted father and husband, and is survived by his daughter, Hannah Koch. He will be dearly missed by his close friends and daughter.

A celebration of Kenneth's life will be held 12-4pm, Sunday, March 10th, 2024 at Lincoln Center, in the Founders Room, 417 W. Magnolia Street, Ft. Collins, CO 80524.

“ Working with Ken at HP was an adventure. On his quiet days he has always fired up. There was never a dull moment. My favorite line was when he told me I knew more than anyone else he had met about analog circuit design. I responded Ken I think I am the oldest analog designer you have crossed paths with so you are confusing being old with being overly knowledgeable. He laughed one of his Ken belly laughs and said "good point!"

“ Hannah, I was sorry to read that your father passed away and would like to offer my condolences to you. I was your father's neighbor and friend during his childhood as we grew up in Worcester, Ma. and lost touch with him after he finished college and moved away. Although both of us moved on with our lives I have thought about him over the years and wondered how he was doing. My sincere condolences to you for your loss. Paul Dalianis
