“ I have had the privilege of knowing and working with Margaret. She lived at and contributed much to RiverPointe Senior Living, where she lived up to the end of her life. I had the great pleasure of having her serve on my Activities Committee, the volunteers who help set up and conduct and clean-up after our many events at RiverPointe. She was so organized and able to get things set up quickly and properly. She always had good ideas to contribute that made the event go more smoothly. She always contributed one of her home-made "bits and pieces" books to Resident Council fundraisers. Her books were indeed a prize. Margaret's life was very full. I admire her as a person, her generosity with her time and many skills and although she never would take the spotlight, she was very involved in the community. I miss her very much. My prayers are for her family and friends to have peace and strength in the loss of Margaret.

“ As you grieve Margaret's passing I share some special memories. In the mid-1990's I met Margaret at the Littleton Community Center where we were volunteer computer instructors for senior citizens. She was always ready to serve as a teaching assistant for Basic Windows computer classes. But her teaching specialty was using the Windows Paint program to create display panels for clubs/social groups, make greeting cards and business cards, and edit/restore old photos. I became more impressed by her artistic and communication skills when she shared with me spiral bound books she made to document her life and her husband's art. I especially appreciated her book depicting growing up on a farm in California. I can understand why she said her grandchildren always wanted to see her books when they visited. What a wonderful treasure for her family to cherish. Our instruction group was fortunate to share such skills and contributions. I will miss her and extend my condolence to you.

“ My husband and I were truly saddened to hear of your mom's passing. As neighbors for almost 30 years, we shared many "fence talks" sharing about family happenings and such, numerous garden and lawn tips, as well as many recipes. In many ways, I considered Margaret my mentor as I so admired her outlook on life and her many talents. She truly was a kind, generous and caring person. I've been missing her and now I miss her more! Please know we share your sadness, but the warm thoughts of your Mom will always be with us.

“ Margaret was such a wonderful lady and I am grieved at her death. She was a woman of great intelligence and empathy and was happy to share her knowledge and skills with anyone who shared her desire for knowledge. I met her through the Littleton Community Center where I was director for many years and kept up my friendship with Margaret after my retirement through the internet. I admired the way she coped with her husband's Alzheimers Disease and I am privileged to own one of his paintings which Margaret had mounted to auction off for a benefit for LCC. I think of them both when I see it. She was also very accepting of her own health issues and didn't let them get in the way of enjoying every moment and every experience of her life. She will be missed by all who were fortunate enough to know her. My sincerest condolences to you who loved Margaret.

“ Thinking of you during this time. Wanted to let you know that I admired Margaret tremendously. She was such a gracious and dedicated person that I thought very highly of. She was always willing to help out in anyway possible. She will be remembered and truly missed. She was an inspiration to many.
