“ I want to "Thank" my uncle Mike for motivating me with the weightlifting and training in my younger years. He was an "icon" for the whole family with giving us the drive to better ourselves and to push us to be the best that we can be. He will be dearly missed!

“ I will never forget the countless times that Mike, (or what I so fondly called him, Senior and he called me junior), dropped everything to lend me or my family a helping hand. He even drove me across the country from California to Missouri to live with my grandparents. I remember how he adored babies, and would reach out and grab their little ears gently even if it was someone he didn't know and then just laugh. :) He always had a nick name for those closest to him. Senior and I had lost touch for some years, as many friends and family do, but when he recently commented on one of my FB posts and called me junior, I couldn't help but smile big. I was so shocked and saddened to hear of his passing. He is one of those people in life that truly touches people's soul just by knowing him. I loved and adored that man as a father figure. He will be missed so very much. Fly high Senior! Now you can lift as many weights as you want again. I wish I would have told you what a positive impact you made on my life.
