*Red (how he was known in high school) was my first love! He was larger than life with an infectious smile, beautiful twinkling eyes, loving and compassionate. I am the person I am today, because of him. I will always love him and think of him as I have my whole life.

“ *Mike & I had been friends for over 35 years. As with all friendships, we had our ups and downs, but on the whole, it was always solid. I consider myself fortunate to have known him all those many years: he will be deeply missed. He is at last free of the many health issues that plagued him for so many years, and is now free to enter that spiritual realm he so firmly believed in. Rest in peace dear friend.
