“ I was not aware of Paul's passing until tonight. I've known Paul since the 90's at Peterson Canvas. Margie always had some building project going on, and Paul was her man! Then in later years he and Gladys always stopped to talk whenever we saw each other - they were shopping, I was working. Paul always asked how my husband was doing. They both brightened my day. Paul was an amazing person, and they were an amazing couple. I've often thought of both of them
