“ *My Dad was a focused man that had to grow up fast, had responsibilities at a tender age of 13 teen years old. Had to leave school in 8th grade, what did he do with that? Helped raise his siblings till he enter the service and married our mom. After the service had new responsibilities farm and working as a mechanic in town. Then came the train trip to Colorado to start a new life. We as children free to grow up playing from sun up till sun down in making forts and riding our bikes, just being kids! My dad enjoy his easy chair and at night i would crawl up into his lap and watch TV with him I loved those times. We fished with him and enjoyed going to the mountains with him. We had a kind of charmed life growing up in Colorado. We struggled just like other families of that time but got through just fine! Thanks Dad for your love and guidance!*

“ There are never any words to express our deep condolences for your family. Loss is painful, the loss of a father and brother in a two week span must be devastating. I want your family to know how fond I was of your father, he was always so kind to me, and yes he had an infectious laugh. Always asked how I was doing and David. I will miss him. Mary and Joe, we are sending you healing prayers, filled with love, wishing your family peace and light during this difficult time. If you need anything we are a phone call away. We love you!
