

Roy McKinney Buchan

October 22, 2011

Roy Mack McKinney Buchan passed away on Saturday, Oct. 22, 2011 with family at his side. He fought a number of valiant battles against numerous illnesses in the past few years. Roy was born in Globe, Arizona in 1943 and moved to Pueblo, Colorado in 1954 after the death of his father in an occupational accident. Roy attended Pueblo County High School where he was active in sports and excelled at football. Roy went on to receive his BS from Colorado State University, and his MS 1970 and DrPH 1972 in Industrial Hygiene IH with a specialization in aerosol sciences from the University of Oklahoma. Dr. Buchan then worked briefly as a civilian for the United States Air force prior to gaining a faculty position in the Department of Environmental Health at Colorado State University in 1973 which he held until retiring in 2003. Dr. Buchan founded the IH program in the department of Environmental and Radiological Health Sciences. He supported students in this new major by applying for and receiving numerous funded programs such as a Kellogg Foundation grant, OSHA consultation program, a NIOSH training grant to support students and a multidisciplinary center serving Public Health Service Region VIII to accomplish research, education, outreach and service related to agricultural health and safety. The High Plains Intermountain Center has remained funded serving the region since 1991. Dr. Buchan was a recognized leader in the field of Industrial Hygiene, devoting his entire professional life to the advancement and practice of Industrial Hygiene. Roy served as president of the two primary national organizations in his field: the American Conference

of Government Industrial Hygienists ACGIH, and the American Industrial Hygiene Association AIHA. "He was one of those rare 'agents of change' whose passion was to change conditions for workers in the United States, but also around the world." Dr. Buchan had a passion for expanding the field of Industrial Hygiene to the developing world and sought to develop educational opportunities in multiple countries including Poland and Romania, and supported fledgling organizational development in countries such as Brazil, Venezuela, and Mexico. For his efforts to enhance opportunities for practitioners in these countries, Dr. Buchan received a number of prestigious awards including: Amicus Poloniae given to him by the Ambassador of the Republic of Poland, Janusz Reiter May 18, 2006; "The Diploma de excelenta a Senatului Universitatii Technice "Gheorghe Asachi" din Iasi" Romania by the President of the University, Professor Nicolae Badea. As a Professor Emeritus Dr. Buchan was selected by the American Industrial Hygiene Association as the recipient of the organization's most prestigious award – the Donald E. Cummings, AIHA's third president who died tragically at the age of 42. The award is given for outstanding contributions to the knowledge and practice of the profession of industrial hygiene. The award announcement noted that: "Dr. Buchan has devoted his entire professional life to the advancement of the knowledge and practice of industrial hygiene. Dr. Buchan has been instrumental in creating healthier workplaces and workers around the world, not only by his personal efforts, but by the growing cadre of trained and educated practitioners of industrial hygiene that his determined efforts have created. Roy is survived by his wife of 42 years, Vicky Buchan; his grandchildren, Seth and Raven McQuarrie; his mother, Norma Ketchum; his sister, Mary Buchan-Arnold Mike; his brother, Mike Ketchum Janice, sister in law, Kitty Gale Don; brother in law, Harry Van Camp Susan; son-in-law, Jamie McQuarrie and numerous aunts, uncles, nieces, nephews and cousins. His grandchildren wanted to state that he was a wonderful grandfather and special in every way. He was recently preceded in death by his daughter, Brook Buchan McQuarrie, deceased September 4, 2011; his father, Robert

Buchan deceased 1953, his stepfather, Orris Ketchum deceased 1990 and grandparents on both sides of the family. In lieu of flowers the family requests that donations be made on his behalf to the Student Scholarship fund for students in environmental health and industrial hygiene Department of Environmental and Radiological Health Sciences, Colorado State University or to a charity or cause of your choice. The celebration of the life of Roy M. Buchan will be held 1:00 p.m., Friday, October 28, 2011, Foothills Unitarian Church, 1815 Yorktown Avenue, Fort Collins, Colorado. Dr. Marc Salkin will officiate.

“ I first met and knew Mack when we both lived in Pueblo, Colorado. I also had the privilege of attending school with him in Pueblo and in the University of Oklahoma. Since we both received the same degree and had the same profession we kept in touch over the years. I will surly miss both the friend I had and the brilliant professional that he was. Bye Mack! “ I remember Roy from the early days of the Environmental Health program at CSU when he started the industrial hygiene and occupational safety courses. With Eldon Savage and John Bagby, Roy helped build a solid EH program that produced many well qualified graduates. Roy was dedicated to his profession and students. I particularly appreciate the support Roy gave me. He will be missed by many people throughout the world.

“ Members of the American Industrial Hygiene Association AIHA International Affairs Committee IAC extend our heartfelt condolences to Roy's family. We remember Roy for his passionate commitment to industrial hygiene and improving occupational health around the world, which he expressed through his many roles in AIHA, including President, Board Co-ordinator for the IAC, and an IAC member. Roy pioneered the AIHA's International Affiliate Membership and recently shared with us his exciting contributions to the occupational hygiene profession in Romania. He was a dedicated mentor to many in the profession and a role model for us all. He will be deeply missed.

“ Vicky, I remember in 1973 “Mack” contemplating in our backyard oak tree swing in Oklahoma City his career move after receiving his DrPH in Industrial Hygiene from Oklahoma University. He wrestled with you and he staying in OKC or taking the position at Colorado State University. It is comforting to learn today that his choice touched so many lives at CSU let alone worldwide. You have always been in my thoughts and will truly be missed my dear friend..... Blessing to you, Vicky. Bob Conklin October 28, 2011 Sequim, WA

I looked forward to seeing every time he came and I know his classmates did as well. It was always fun to hear of his most recent travels or his most recent adventure with his family and/or Kamal into the mountains. He was always so kind and supportive of my family and I as well and I will always appreciate and remember Roy with fondness.

“ Dear Vicky and family: My heart goes out to you at this time of sorrow, and you remain in my prayers. To meet Dr. Buchan and to learn of his work, travels, outdoor adventures, and devotion to his family and grandchildren was to be immediately and profoundly impressed. A gifted and highly educated man, he would no doubt smile and say that the smartest thing he ever did was marry the girl of his dreams & spend 42 of the best years of his life with her. In the wake of two such unimaginable blows in recent weeks, may you be comforted in soul and spirit, and know that you have the heartfelt sympathy and prayers of a host of colleagues and friends across the U.S. and around the world.

“ One can hardly make a real friend in a lifetime. So, I consider myself incredibly lucky to have found Roy, who, five years ago had come a very long way to meet me in Iasi. Since then, I always felt him close to me, strong, skilled in almost everything, calm and enduring, with a great love for his family and friends. He always spoke highly of his friends and colleagues from all over the world. I have been a guest at his house and I could see how he shared love, how he surrounded everyone with affection: his beloved wife Vicky, his daughter, his son-in-law and his grandchildren. He was also very fond of his silent companion, Khaemal, who always accompanied him on his walks in the mountains. Roy, you are leaving us now on an unknown path, but I am sure that you will find many new friends in the world you are going to. Never forget us, as we shall never forget you! Watch over us and protect us from the sky, as you have always done. God bless you and rest your soul in peace!

“ Roy was engaging, unassuming, passionate and practical. He committed his life to improving the lives of working people, both here and abroad. Through humble service, Roy became a pillar of the industrial hygiene profession and was responsible for launching and influencing countless industrial hygiene careers. The world was, and is, a better place because of Roy. The profession will forever be indebted to him, and I, like so many others, will dearly miss him.

“ Roy Mack – even though he insisted I was always a bit uncomfortable calling him that has been in my life since 1985 when I landed on his doorstep -actually across the desk in his office at CSU. He was a good person – enough said. I continually crossed paths with him and I was proud to share my accomplishments as he was instrumental in my personal and professional life. Roy I mean Mack, Bob Grundemann and I got to chase mule-deer with black-powder in the high mountains of Colorado. He claimed and I believe him we were the only students he ever did that with. That being the case, it is the best honor, and memory, he could have ever have bestowed to me! You will continue to be a part of me and I'll be thinking of you Mack that was easier that time, every time I'm up in a mountain meadow – oh yeah – and every time I'm faced with a real IH challenge.

“ My sincere condolences to Roy's family. I travelled with Roy to Poland as a delegation from the AIHA International Affairs Committee, and was impressed with his commitment to worker health and to the global advancement of the industrial hygiene profession. He was an inspiration to many of us. I went on to help lead the OSH research efforts of CPWR which is affiliated with the Building and Construction Trades Department of the AFL-CIO. Roy offered encouragement and advice on several occasions, and that advice and thoughtful discussion will be sincerely missed.

“ I first met Roy at CSU in 1982. I had initially started my work in Chem Epi but after taking Roy's classes, switched my major to industrial hygiene. Roy became my advisor and guided, pushed, and heckled me until I finished my degree. But he did not stop there! As with all of his students, he took a continued interest in you and your progress in the profession. He appointed me to the conference committee as the ACGIH representative, a position that helped move my career forward. He and I would frequently meet at conferences and talk about hunting and horseback riding, two activities that we shared. He was always available for consultation and was quick to promote his present and past students. I think that one of the best attributes that any person can have is to care more for others than for themselves. Roy certainly fit that description and he will be missed in the profession and as a friend by many, many people. My condolences to Vicky and the rest of the family.
