“ My mother was next to the perfect mother a son can ask for growing up. If anything can come good of her death, I just want to remind people how alcohol addiction can overpower even some of the once kindest souls.

At least now I know she's no longer sick and miserable and I keep her ashes, baby book (of me), and old pictures including this one with me on my piano.

Sharon was a gentle soul. This world was hard for her at times. Her love for her family knew no boundary or conditions. She is missed.
