“ Lots of weekends spent with the Borms, watching our kids play baseball and softball. Stacy will always be her kids' biggest cheerleader. Prayers and love to Cory and all her children. Stacy, you will be dearly missed.

“ I first met Stacy while she was working for the Laramie County Clerk of District Court office.

We got along right away! Talking with Stacy became easier when she began working at the State Disbursement office. Though we didn't talk to each other often, I always liked talking with her. She was always bright and cheerful when we talked and I knew that our conversations would be interesting whenever we talked.

I will miss our meeting in the hall and being able to talk with her!
